# PROGRESS update

- Android App:
  - Created a flow diagram for the interface
  - Able to detect place stickers for location based services
  - Running more test on place sticker's ID, Distance
  - GridView interface for the artworks
  - Working on GridView update problem
  - Added Upload button
  - Added animation for the Upload button
  - Added Start Tour button
  - Went to Osaka University to talk about communication between desktop and android device.

# NEXT WEEK

- Fix GridView interface bug (showing repeated images randomly and missing the others)
- Able to retrieve artwork description from a text file (considering using a database instead for easy management)
- Run more experiments on placeStickers
- Setup layout for the rest of interfaces.
- Attend android/touch table meeting on Wed.
- Research on MySQL, php, apache, and myphpAdmin
- Research on android video player
- Search for options to communicate between touch table and android device.

# JAPANESE CULTURE-Scott

- Thousands of people gathered around Kawaramachi Dori to see the Japanese floats at night before Geon festival's big parade
- A temporary night market was set up at the same time
- Many special foods were sold at the night market
